

Spreader Bar for Forklifts

Forklift Spreader Bars - Proudly operating since 1974, ELME Spreader AB is the largest independent spreader business all-around the world. They have been a dedicated maker of spreaders designed for various applications such as the swap bodies, trailers and handling of containers.

Engineering is done in-house by way of utilizing all the most up-to-date FEM tools and CAD systems. The ELME business presently has over one hundred twenty five personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers all-around the globe.

The ELME product range offers spreaders meant for various trailer and container handling operations. A few of their inventory consist of: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks as well as a wide array of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by way of utilizing top quality parts so as to guarantee dependability and excellent standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market response and innovative modular spreader concept.
