

Meritor Parts

Meritor Parts - Meritor is a leading international dealer that is proudly founded on a one hundred year tradition of service and quality. They specialize in different modules, integrated systems and parts to original machinery manufacturers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage within the international operations. The company values all of their clients and would like to guarantee their success while anticipating their different requirements. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over 11,200 individuals, Meritor promotes collaboration and innovation among a team of knowledgeable experts.

Meritor strongly believes in just hiring future focused individuals. These top-caliber people could rapidly get used to to changing environments and freely demonstrate the level of performance and commitment needed to be able to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers their staff various possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes drivelines, axles, suspension and braking systems utilized for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their worldwide engineering workers.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all around the world in 19 countries and in 5 different continents.

The supplier development network is specifically situated to support new business development. Regional teams are supported by worldwide centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each and every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business techniques and implement lean techniques.
