

TCM Forklift Parts

TCM Forklift Parts - In the international trade of material handling, forklifts play an important role for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in the United States, forklifts gained popularity following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread internationally.

First founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Through the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation with the trade. TCM started building lift truck manufacturing locations outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

With more than 50 years of accumulated technology and expertise, TCM has been proudly manufacturing numerous models of industrial lift trucks, making their models known all around the globe. With a strong and energetic staff, TCM has been able to continually work towards becoming a future leading material handling company.
